Foundation Seed

Orders received before December 15 will receive priority over orders received after that date. Recent releases available for 2012 are Rollag and Prosper spring wheat, and MN0095 soybeans.

Combine Wanted

The MCIA Foundation Seed Program is looking for a small combine that could be used on the St. Paul campus to harvest small seed increases, usually in the 1-3 acre range. Ability to thoroughly clean the machine is very important. Age does not matter. A header width about 10 feet needed. If you have a combine that might work, contact Craig or Roger at MCIA 1-800-510-6242.

Lacey Barley

Certified seed of Lacey barley has been in high demand this fall. If you have carryover Lacey available and eligible for certification, please let Roger know at the MCIA office.

2012 MCIA Annual Meeting

A **Seed Treatment Workshop** will be a focus of the 2012 Annual Meeting, which will take place **January 10-11**, at the Shooting Star Casino in Mahnomen. Mark your calendars and plan to attend! Contact Ben Lang at MCIA if you have agenda items that should be addressed at the Annual Meeting.

Agronomic Standards & Approved Facilities Committees

These two MCIA committees will be meeting Wednesday morning, January 11th. The agenda includes changes to Agronomic Standards and possible standards for applying seed treatments. The committee meetings are open to all MCIA members and we welcome your input.
