IMPROVEMENT ASSOCIATION**

# CERTIFIED SEED

Improving your process · Enhancing your products · Increasing your profits

## What is seed certification?

Seed certification is an internationally recognized system to preserve the genetic identity and purity of crop varieties.

## How is seed certified?

Seed certification requires planting eligible seedstocks, field inspection of the growing crop, proper conditioning, representative sampling, thorough laboratory analysis, and proper labeling.

## Who produces certified seed?

Certified seed is produced by careful, conscientious growers, according to seed certification standards. Seed certification standards and procedures are available from MCIA.

## Why buy certified seed?

Seed certification procedures provide the best possible third-party assurance of good quality seed of known identity and purity.

## What should I look for?

For certification to be valid, buyers must be provided proof of certification. Seed containers must bear an official certification label. Bulk seed sales must be accompanied by a Bulk Seed Sales Certificate.

**MCIA**  
MINNESOTA CROP IMPROVEMENT ASSOCIATION

**BULK SEED SALE CERTIFICATE**

1900 Hendon Avenue, St. Paul, MN 55108 • Tel: 612-625-7766 • Fax: 612-625-7748 • mncia@mncia.org • www.mncia.org

A Bulk Seed Sale Certificate is provided to buyers of bulk certified or QA seed at the time the seed is delivered and serves as the legally required label and proof of certification or quality assurance (QA).

**BARLEY**

NAME, CITY	TELEPHONE	ACREAGE	
		Reg	Cert

**Lacey:** High yielding variety with improved malting quality characteristics. It is a six-row, smooth awn, white aleurone variety with good kernel plumpness. Lacey is average height with good lodging resistance; resistance to spot blotch and is similar to Robust for scab reaction. Classified as a malting variety by AMBA. Released by Minnesota Agricultural Experiment Station in 2000. License required for seed production.

**Roseau County**

Erickson, Douglas, Roseau....218-469-2660 25

**Todd County**

Faust, Kevin, Long Prairie.....320-732-3361 46

**ND Genesis:** A high yielding two-row barley developed for North Dakota and adjacent parts of Minnesota, Montana, and South Dakota. It is medium-late maturity with medium straw strength, semi-smooth awns, and long rachilla hairs. ND Genesis is moderately resistant to the net form of net blotch, and moderately resistant to the spot form of net blotch and spot blotch. It has large, plump kernels, low protein, some drought tolerance, accumulates less DON, and has lower beta-glucan values than Pinnacle. Classified as a malting barley by AMBA. Released by the North Dakota Agricultural Experiment Station in 2015. License required for seed production. PVP(94) Title V.

**Clay County**

Olek, Bradley, Felton.....218-494-3440 75

**Freeborn County**

Albert Lea Seed House, Inc  
Albert Lea .....507-373-3161 40 20

**Wilkin County**

Scheffler, Richard  
Barnesville.....218-493-4456 84

**Quest:** A six-row malting barley with improved Fusarium head blight resistance and lower mycotoxin (DON) levels. Quest has a semi-smooth awn, white aleurone and long rachilla hair. It is about the same height as Robust, but taller than Lacey with yield and grain protein levels similar to Tradition and Lacey. Selected by AMBA as a recommended malting variety in December 2010. Released by Minnesota Agricultural Experiment Station in 2010. License required for seed production. PVP(94) Title V.

**Freeborn County**

Albert Lea Seed House, Inc  
Albert Lea .....507-373-3161 28 90

**Rasmusson:** High yielding variety with improved malting quality characteristics. It is a six-row, semi-smooth awn, white aleurone variety with good kernel plumpness. Rasmusson is shorter than most current six-row malting varieties in the Midwest. It has performed well in Minnesota and North Dakota yield trials. It has good lodging resistance, resistance to spot blotch, and is similar to Robust for scab reaction. Released by the Minnesota Agricultural Experiment Station in 2008. License required for seed production. PVP(94) Title V.

**Polk County**

Capistran Seed Company  
Crookston ..... 218-891-7840 145

**BARLEY**

NAME, CITY	TELEPHONE	ACREAGE	
		Reg	Cert

**Robust:** Medium yield and maturity, colorless aleurone, six-row, semi-smooth awn, short rachilla hairs. Good lodging resistance and kernel plumpness. Resistant to spot blotch. Classified as a malting variety by AMBA. Released by Minnesota Agricultural Experiment Station in 1983.

**Freeborn County**

Albert Lea Seed House, Inc  
Albert Lea .....507-373-3161 42 12

**Meeker County**

Peterson, Russell M  
Grove City..... 320-877-7793

**Roseau County**

Erickson, Douglas, Roseau....218-469-2660 37

**Royal:** Short, six-row, smooth awn, good forage quality. Very good lodging resistance, ideal as a companion crop. Has blue aleurone; not a malting variety but intended as a companion crop for legume establishment or as a feed barley. High in relative feed value. Released by Minnesota Agricultural Experiment Station in 1994. License required for seed production.

**Wabasha County**

Zabel Seeds, Plainview.....507-534-2498 64

**Tradition:** Six-row, medium-early maturity variety. It is medium-short in height and has very strong straw. Tradition has a nodding head type, semi-smooth awns, long rachilla hairs, and white aleurone. Tradition has excellent agronomic performance and malt quality, and is well adapted to Minnesota, North Dakota, Idaho, and Montana. Classified as a malting variety by AMBA and developed by Busch Agricultural Resources. License required for seed production. PVP(94) Title V.

## BARLEY, WINTER

NAME, CITY	TELEPHONE	ACREAGE	
		Reg	Cert

**MN-Equinox:** A six-row winter barley variety. MN-Equinox is facultative, meaning it can be planted in either the spring or fall. Released by the Minnesota Agricultural Experiment Station. Special license required for seed production. PVP(94) Title V contemplated.

### Freeborn County

Albert Lea Seed House, Inc  
 Albert Lea ..... 507-373-3161 29

### Lincoln County

OCF Seeds, Hendricks ..... 605-690-0918 8

## BEANS

**Eclipse Black:** An early maturing, high yielding black bean with ovoid seed and dull (opaque) black seed coat. Eclipse is approximately three days earlier in maturity than T-39 and exhibits a synchronous plant dry-down at harvest. Eclipse is resistant to bean common mosaic virus, anthracnose race 7 and many races of rust. Released by North Dakota Agricultural Experiment Station. License and royalty agreement from NDSU Research Foundation required for seed production. PVP(94) Title V.

### Grant County

Kapfahn, John M  
 Elbow Lake ..... 218-685-4604 65

## BIRDSFOOT TREFOIL

**Norcen:** Broad leaved type with intermediate growth habit. Flowers earlier than Carroll but later than Viking. Less winter-hardy than Leo and Carroll. Developed cooperatively by Experiment Stations of the North Central states. Released in 1981.

### Roseau County

Pieper Farm, Daniel  
 Roosevelt ..... 218-556-0755

## BUCKWHEAT

NAME, CITY	TELEPHONE	ACREAGE	
		Reg	Cert

**Koto:** A diploid, open-pollinated buckwheat variety. The leaf blade is arrow-shaped. Intensity of anthocyanin coloration of the flower buds is very weak to weak. Koto has terminal umbels which are loose to semi-compact in density and single axillary racemes. The flower type for Koto is heteromorphic. The very well filled (rounded) seeds of Koto are black with flanges.

### Roseau County

Estling Farms, Roosevelt ..... 218-242-1556 30

## KENTUCKY BLUEGRASS

**Park:** Excellent seedling vigor, moderate resistance to rust, susceptible to mildew. Good forage and seed producer. Makes tough, durable sod. Released by the Minnesota Agricultural Experiment Station in 1957.

### Roseau County

C & S Habstritt Inc, Roseau .....	218-463-1193	20	290

Wensloff, Tony, Roseau .....	218-463-2668		381

## OATS

**Antigo:** An early maturing, high-yielding variety with excellent test weight. Antigo is moderately resistant to crown rust and showed low crown rust infection levels in most trials. Antigo has good quality properties such as high dehulling efficiency, an average groat percentage, but high groat protein percent, groat protein yield, and groat oil percent. Released by the Wisconsin Agricultural Experiment Station in 2017. No registered class. License required for seed production. PVP(94).

**MN-Washburn:** A hard red spring selected for straw strength, yield, disease tolerance, and milling and baking quality. Adaptable to Minnesota and the Dakotas. It has resistance to preharvest sprouting and very good lodging resistance. MN-Washburn has a very good combination of overall disease resistance, including very good ratings for bacterial leaf streak and Fusarium head blight, and excellent ratings for leaf rust and stripe rust. In addition, it contains the bdv2 gene for resistance to barley yellow dwarf virus. Released by the Minnesota Agricultural Experiment Station in 2019. PVP(94) Title V.

### Roseau County

C & S Habstritt Inc, Roseau ..... 218-463-1193 73

**Shelly:** A high yielding variety well adapted to the hard red spring wheat growing regions of Minnesota, North Dakota and South Dakota. Grain yields are comparable to the highest yielding varieties but at a higher protein level. It possesses a good disease resistance package with an excellent rating for resistance to stripe and stem rust with moderate resistance to scab, leaf rust, and bacterial leaf streak. A medium maturity variety, Shelly has good test weight and preharvest sprouting resistance. Released by the Minnesota Agricultural Experiment Station in 2016. License required for seed production. PVP(94) Title V.

## WHEAT, DURUM

**ND Stanley:** A durum wheat variety with high yield potential, combined with strong straw and good quality protein content. ND Stanley has high test weight, large kernels, medium height, average maturity, and is resistant to both leaf and stem rust diseases. Released by the North Dakota Agricultural Experiment Station. PVP(94) Title V.

#### Pennington County

Scholin Farms

Thief River Falls .....218-964-5268    24

## WINTER WHEAT

**Ideal:** A hard red winter wheat with high grain yield and adaptation to the northern winter wheat production area. It exhibits good winter hardiness and excellent resistance to lodging. Ideal is moderately susceptible to stripe rust and susceptible to head scab, but it exhibits moderate resistance to tan spot, leaf and stem rust. Released by the South Dakota Agricultural Experiment Station in 2011. License required for seed production. PVP(94) Title V.

#### Polk County

Fosston Tri-Coop, Fosston ....218-435-6222    11   104

## WINTER WHEAT

NAME, CITY	TELEPHONE	ACREAGE	
		Reg	Cert

**ND Noreen:** A hard red winter wheat with plant height and maturity. ND Noreen has excellent winter hardiness and is a conventional height variety with excellent straw strength. Overall grain quality for ND Noreen is good and has been strongly resistant to bacterial leaf streak. Released by the North Dakota Agricultural Experiment Station. PVP(94) Title V.

**Redfield:** A hard red winter wheat adapted to the northern part of the winter wheat region with excellent lodging resistance. It is medium maturity, red chaff, with good winter hardiness. It is moderately susceptible to leaf rust, moderately susceptible to moderately resistant to stripe rust, and susceptible to wheat streak mosaic virus. Released by the South Dakota Agricultural Experiment Station in 2013. License required for seed production. PVP(94) Title V.

#### Meeker County

Smith, Steven, Darwin .....320-221-8255    18

**SD Midland:** A variety with high yield potential that is slightly taller, semi-dwarf with very good standability. SD Midland has excellent protein results, baking quality and is very good disease resistance package to FHB and susceptible to leaf & stem rusts. Released by South Dakota Agricultural Experiment Station. PVP(94) Title V applied for.

# Certified Seed Doesn't Cost...

# It Pays!

## ▲ PROVEN QUALITY

- High germination
- Fewer weed seeds
- Less inert matter
- Less seed-borne disease
- Known varieties

## ▲ SUPERIOR PERFORMANCE

- Better plantability
- Rapid stand establishment
- More uniform maturity
- Easier harvest
- Less dockage

## ▲ GREATER PROFITABILITY

- Newest genetics
- Less weed control costs
- Less disease control costs
- Greater yield per acre
- More return on your investment

# Proven on-field performance

Award-winning hard red spring wheats

LCS Buster

LCS Trigger

LCS Cannon

LCS Boom

- Trial-topping yield
- Very strong straw
- Improved protein over LCS Trigger

- Blockbuster yield, year after year
- Top yielder in MN and ND state trials
- Very strong straw

- National Wheat Yield Contest winner in SD
- Excellent protein
- Very early maturity, quick emergence

- Get to market first with very early maturity
- Superior disease package
- Yield-protein balance

LCS Hammer AX

## Smash grassy weeds

- High-yielding CoAXium line
- Balanced protein
- Early maturing
- Good test weight

Plan for a bin-busting crop
