

DIRECTORY ACREAGE OMISSION

The MCIA *Directory* will be published in print and online, at mncia.org, in the fall.

Applicants for field inspection may omit their acreage of public varieties from the *Directory*. To request that your acreage be omitted from the *Directory*, please complete the form below and return it to MCIA before August 1. Such listings will then include the applicant's name under the appropriate variety(ies), but will not indicate the number of acres produced.
