What is the MnDOT Seed Vendor Program?

The MnDOT Seed Vendor Program is a quality assurance program that ensures seed supplied to the Minnesota Department of Transportation (MnDOT) for use on its roadside revegetation projects meets the specifications of state and federal audit programs.

What is MCIA's role in the MnDOT Seed Vendor Program?

MCIA is the official entity that provides an evaluation and approval process, with concurrence from MnDOT, for seed vendors producing its seed mixes.

How is a MnDOT Seed Vendor approved?

MnDOT Seed Vendors are audited and inspected annually to determine their conformance with MnDOT's seed supplier requirements. To be approved, seed vendors must

meet minimum requirements for equipment, seed procurement, records, packaging, and labeling appropriate for seed to be sold for MnDOT projects.

As a buyer, what should I look for?

Approved MnDOT Seed Vendors are issued "Certificates of Approval" that are to be prominently posted in their place of business. MCIA also provides Approved Facility signs. Approved MnDOT seed mixes must be labeled with an Approved Seed Vendor Tag.

Where do buyers find a list of MnDOT seed vendors?

A current list of approved MnDOT Seed Vendors can be found on the Where to Buy page of the MCIA website.

For more information, call MCIA or visit our web site at www.mncia.org
